To whom it may concern,

My wife and I utilized the services of 'US Asset Finders' in order to retrieve and-or discover unknown assets that may be available to us. As we did not possess the know-how to accomplish this, we relied on Simon Weiser as representative of the aforementioned company. We were pleasantly surprised as to his efficiency in both locating unknown assets and the speed to which it was accomplished. When we met Mr. Weiser, he was professional in his presentation and appeared sincere in his ability to accomplish stated goals. When he last spoke to my wife over the phone, I realized immediately that he did well for us by noting my wife's scream of surprise and pleasure as to the amount of located assets. Thanks again to Mr. Weiser and his company for achieving his stated objectives.

Yours truly,
