Dear Friends,

I have had a wonderful relationship with US Asset finders. They do all the work and they are worth their fee. Anyone familiar with trying to get assets back from various sources knows about the headaches and frustrations of dealing with entities holding your loved ones' money and not wanting to part with it.

You must bring one document after another. Shimon Weiser did all the work (occasionally I had to do something but I was all laid out for me).

Thank you US Asset Finders and pray you go from strength to strength.
Wishing you all a healthy summer and
good coming New Year.
